

CHARGING CASE

APII 1000

The **APII 1000 charging case** allows you to charge drones, cameras, tablets, radios and other similar devices in a compact and weather-proof way. The charging case allows charging even during transport and when closed, solving the so called "thousand cable problem". The 40Ah battery built into the case can be charged from both a generator and a car.

Made in the Estonia from tested and reliable components that are designed to last.

The product has been developed for civil defense and military specialists and is suitable for anyone who works with battery-powered equipment in outdoor conditions.

- ◆ The warranty period for all charging case components is 12 months.
- ◆ The box is made of high-quality weatherproof materials.
- ◆ Materials used can withstand high and low temperatures and shocks.
- ◆ Allows for compact and quick charging of necessary devices: for example, four DJI Mavic 3 battery chargers can operate simultaneously and enough space is left over for two more remote controls, tablets or other smart devices.
- ◆ Inside of the case is covered with soft velcro, enabling the user to secure the charging items.
